

Job description: Cell Culture Research Technician (Ref. TSRT1_2016)

Bresso, June 2016

Axxam is a leading provider of integrated Discovery Services for the entire Life Sciences industries such as Pharmaceutical, Crop protection, Animal health, Cosmetics and Nutrition. We have a strong expertise across a broad range of discovery disciplines and innovative technologies including: assay development, compound management, High Throughput Screening, Hit Identification and Hit Validation. Axxam is also engaged in developing novel innovative therapies for diseases with a high unmet medical need. An open and dynamic working environment supported by an industrialized organization ensures high-quality results.

We are currently seeking a **Cell Culture Research Technician** with background in cell culture and benchtop assays to strengthen our Technical Services Group. She/he will use sterile techniques to perform manipulations of cell lines for individual production runs, including cell expansion, freezing, cell counting and preparation of cell inoculums. She/he will be expected to strictly adhere to company SOPs when performing lab functions, maintaining paperwork and batch records.

A Biological Laboratory Technician is ideal for this position.

Minimal experience in following fields is required:

- Outstanding sterile technique
- Cell culture and handling of immortalized and primary cell lines
- Amplification and freezing of cell stocks
- Preparation of culture media, solutions and reagents
- Basic fluorescence and light microscopy
- Familiarity with laboratory automation: plates and liquid-handling devices
- Working knowledge of Microsoft Office programs (Excel, Word, PowerPoint)

The following skills would be advantageous:

- Good team player
- Ability to work to tight deadlines with a sense of urgency
- Ability to follow instruction closely, but also to work independently as required
- Use of luminometer - fluorimeter (FLIPR) technology
- Industrial experience preferred
- Good spoken and written English

Axxam is an equal opportunity employer

Axxam offers a stimulating work environment and a competitive salary. If your background and personal experience fit this profile, please send your complete application, including cover letter including a brief description of your experience, your CV and a list of references to the address below or upload it at our on-line contact centre: <http://www.axxam.com/careers/job-listing>. Please, include in the message subject "**Ref. TSRT1_2016**" and add to your CV the following statement:

"I hereby grant permission to use my personal data in accordance with the Italian Leg. Dec. 196/2003".
