

Virtual FISV Symposium on SARS-CoV-2 Biology and COVID-19

Current research and perspectives

16 September 2020

Few slots are still available to attend [first virtual edition of the Symposium of the Italian Federation of Life Sciences \(FISV\) on "SARS-CoV-2 Biology and COVID-19: current research and perspectives"](#), which will be streaming on line on 16 September, 2020.

Internationally renowned scientists from Italy and abroad will present their research on six different interdisciplinary topics, including viral evolution, life cycle and structure, virus-host cell interactions, markers of diagnosis and pathology, as well as adaptive immunity and vaccines and drug treatment approaches.. All participants will have ample opportunity to interact with the speakers as well as with their colleagues, ensuring exchange of knowledge and ideas.

Participation is free, but make sure to register by **10 September 2020** to save your space at the conference!

You can also find attached to this email the Symposium flyer.

For questions or comments, visit us at <https://fisv2020.azuleon.org> or contact us at segreteria@fisv.org.

We look forward to seeing you at the symposium,

The Organising Committee
