TACKLING DISEASE TO RECOVER HOMEOSTASIS

4th IRB BARCELONA PhD STUDENTS SYMPOSIUM

BARCELONA 12-13 NOV 2015

The 4th IRB Barcelona PhD Students Symposium aims to connect the molecular mechanisms responsible for tissue homeostasis and the malignant processes leading to different pathologies, such as cancer, ageing- and metabolism-related disorders. PhD students from around the world will be selected to present their research alongside renowned speakers from diverse biomedical fields. Students will also be encouraged to actively participate in Round Table discussions and network during social events such as "Tapas with speakers".

REGISTER ONLINE

by 11 September 2015

Early registration until 17 July 2015
